Download

Easy, quick and fast! So, how to use this file? You can use the "Actions" option to set up the VL. You can add a text effect, a text filter, and a theme. In the picture below, I add a theme, a text effect and a text filter. The Effect: Click on "Add Effect" to add a theme and a text effect. Then click on "Apply" to apply the theme to the video. After apply the theme, you can see the text effect above the video, and the text filter in the "1" panel. You can choose from the options of 4 styles: Normal, Inverted, Bold, and Italic. After applying the theme, you can see the text effect on the video (the two frames on the right). You can also set the position, color and font style. The frame style is "Normal", the frame color is "White", the font is "Times", and the position is "Bottom Right". The Filters: Click on "Add Filter" to add a text filter. After apply the text filter, you can see the filter in the "1" panel. You can choose from 3 fonts, 2-color gradient and 2-color texture. After applying the text filter, you can see the filter in the "1" panel. You can also set the position, color, and opacity. The position is "Left", the color is "Blur", and the opacity is "50%" The Theme: Click on "Add Theme" to add a theme. After applying the theme, you can see the theme on the video (the three frames on the left). You can also set the position, color, and opacity. The position is "Center", the color is "Black", and the opacity is "50%" The VL Activator is a FREE and easy to use video editor that you can use to produce videos on a broad scale. Do you have any question? You can post a comment or send me an email. You can also add your video to the "Pepito's Favorites" so that you can share your video to your friends and family. Click here to add your video. New Menu: Do you find the old menu is not easy to use? I made a new menu to make the procedure easier. 82157476af
